

Coming to a Common Vision: Academic Advising and Career Services

Questions to consider: College/Unit Meetings

Please consider the following questions for discussion during the college/unit meetings. We will take notes of the conversation in that meeting, and the themes generated from the results of all meetings will be made available online and used to continue the process of coming to a common vision.

Name of College/Unit _____

1. What information from today stands out for you? What were the “ah ha” moments?
2. What are your initial thoughts of the common themes that could be used to create the common vision? What is good about the themes? What is missing?
3. What should be the next steps that central administration, colleges/units, and others (e.g., CDN, AAN, etc.) should take to create and make the common vision a reality?
4. What can we do to assure the conversation continues?

This form will be made available online so that individual participants can submit individual answers.
